

SERIES 7™

The Series 7™ designed by Arne Jacobsen is by far the most sold chair in the history of Fritz Hansen and perhaps also in furniture history. The pressure moulded veneer chair is a further development of the classic Ani™ chair. The four-legged stackable chair represents the culmination of the lamination technique. The visionary Arne Jacobsen exploited the possibilities of lamination to perfection resulting in the iconic shape of the chair. Series 7 represents the chair in the Fritz Hansen collection with the widest range of applications.

ARNE JACOBSEN 1902-1971

The cooperation between Arne Jacobsen and Fritz Hansen dates back to 1934. But it was in 1952 the break-through came with the Ant™. It was succeeded by the Series 7™ in 1955. This propelled his and Fritz Hansen's names into furniture history.

Arne Jacobsen was very productive both as an architect and as a designer. At the end of the 50's Arne Jacobsen designed the Royal Hotel in Copenhagen, and for that project the Egg™, the Swan™, the Swan™ sofa and Series 3300™.

Arne Jacobsen was and is an admired and outstanding designer. While the significance of Arne Jacobsen's buildings was less appreciated, his furniture and other design work have become national and international heritage.
