

CONTROL LAMP – EU VERSION

TAF ARCHITECTS ON THE DESIGN “The Control Lamp is a unique and playful lamp with references to hi-fi and industrial machinery. The light and dimmer is controlled by a switch, referencing volume controls, and is an inviting and simple way of interacting with the user. While designing the lamp, we were inspired by the idea of displaying the different lamp components on a serving plate – almost as a still life. It was a pragmatic approach to making a lamp by the simplest means, a reduced design beyond reduction.”
