

70/70 TABLE

FURNITURE / LIGHTING / ACCESSORIES

TAF ARCHITECTS ON THE DESIGN "The 70/70 Table is a study in geometric forms identifying the dimensions for a well-balanced table. It has an almost anonymous expression but with careful detailing. The table is based upon two cast aluminium squared frames with the dimensions 70x70 centimetres. The simple Scandinavian aesthetics balanced with the warmth from the layered wood adds personality to the table."

PRODUCT FACT SHEET

PROCESS The table top is made of plywood, with a linoleum, laminate or veneer surface. The aluminium frames are formed under high pressure casting.

DESIGNED BY / YEAR OF DESIGN TAF Architects / 2013

TYPE Multi-functional table

DESCRIPTION The 70/70 Table is minimalistic in design with an airy, light expression, which creates a beautiful profile. The almost reduced design is balanced with fine details in the plywood layered table top and form of the angular frame.

ENVIRONMENT Indoor

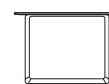

MATERIAL Cast aluminium frames, plywood table top with linoleum (black/grey) / laminate surface (white) and oak veneer.

CLEANING INSTRUCTIONS Clean the table with a damp cloth. If necessary only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away. For linoleum versions it is recommended to use a linoleum polish on the surface 2-3 times a year."

ABOUT THE DESIGNER TAF Architects is a Stockholm-based design and architecture studio making International headlines within product and interior design.
